

RFP Questions/Clarifications

e-mail received 7/23/07:

I have a question regarding the RFP for Outpatient Detoxification/Antagonist Treatment. With us only providing methadone treatment and not Buprenorphine or Naltrexone does this disqualify us? Can we bid it methadone only?

answered 7/27/07:

The RFP is soliciting for the following medications: Buprenorphine, Naltrexone, and Vivitrol. We realize a vendor may not provide all of the listed medications; therefore, a vendor may submit their prices in the RFP based on the each specific medication (Buprenorphine, Naltrexone, and/or Vivitrol) the vendor provides. All RFPs that meet the criteria, or at least provide one of the listed medications, will be evaluated.
